CALL TO ACTION

Democratic Sisters,

Natural disaster has struck again and our friends in Florida have suffered great devastation. The democratic women's clubs in the Panhandle took the brunt of Hurricane Michael and many of our members in that area have lost everything. This area has the largest club within the Democratic Women's Club of Florida and need our assistance. Power has not yet been restored and FEMA is not yet on the ground in the hardest-hit areas.

As a family of democratic women, we pull together when our family needs help and our democratic families in Florida need us now.

I am calling on each of you to make an effort to support those affected in any way you can. Florida DWCF President, Patty Farley is collecting monetary contributions or gift cards to send to our members in the area. She will use the contributions to purchase gift cards to grocery stores or hardware stores so that those in need can purchase necessary items for sustenance and rebuilding. Patty's mailing address is:

Patty Farley
173 Coral Way East
Indialantic, Florida, 32903

At times like these, politics becomes secondary to survival and we hold our southern sisters in our hearts while they rebuild their communities and homes.
