Belinda Biafore, President

RESOLUTION IN SUPPORT OF WORKERS everywhere that are being threatened at the workplace

WHEREAS: the right of workers to join together and form worker organizations is a fundamental human right, recognized worldwide;

WHEREAS: America's working families are the backbone of our communities and foundation upon which our great nation was built;

WHEREAS: All working men and women have dignity and the right to respect and a free choice to use the strength of their numbers to gain a voice at work; and

WHEREAS: Without the freedom to join together in unions, working people would have no way to check unrestrained corporate power, no way to secure fair wages, no way to stop the outsourcing of good jobs and no way to secure balance in our economy; and

WHEREAS: the Democrat party has always been and always will be the champion and defender of working men and women and their freedom to come together in unions; and

WHEREAS: the democrat party is committed to fighting for and taking action on behalf of the millions of Americans who are struggling to find work and support their families

THEREFORE: be it resolved that the NFDW encourage all candidates and office holders at all levels of government to stand in solidarity with America's working families and their unions and oppose the assault on workers' rights; and

THEREFORE: Be it further resolved that the NFDW offers its strong support to the 14 Democratic Wisconsin State Senators who are refusing to allow the tyranny of the Wisconsin Governor and The Republican Legislative Members in rescinding the rights of Wisconsin's State workers, under the false premise of fiscal responsibility; and

THEREFORE: Be it finally resolved: that the NFDW will recommend to all State organizations to pass similar resolutions supporting and defending the rights of working Americans.
