

Action Alert

December 2, 2020

Mitch McConnell didn't waste any time reverting back to his callous and authoritarian way of running the Senate. He has now publicly stated that there will be no bi-partisan legislation in the Senate that will help those in our country that currently desperately need financial help. These people need food, rent money and healthcare support during this pandemic. They have lost their jobs because of the virus and we must help them.

The prohibition on evictions is set to end in December and many families with young children, as well as the elderly, will be without a roof over their heads. Deplorable just begins to describe this situation. How the Republicans can allow him to get away with this is unbelievable.

We must call our members of the Senate, and also the House of Representatives, and demand that they take action to change this situation.

Senator Joe Manchin, D-West Virginia, has been working with a bi-partisan group of Senators to get a stimulus bill passed in the Senate. Tell your Senators to support Senator Manchin's effort to get this critical funding to our citizens.

Thank you for caring for those that need help. Take care of yourself during this crucial time. Stay safe and stay well.

Sincerely,

Cindy Jenks
