FIGHT INFLATION DISINFORMATION

Disinformation is swirling around everywhere and the clamor about inflation is perhaps the most egregious. We must tackle this issue and flood social media and utilize other opportunities to communicate **the facts** about this issue.

There are numerous news reports about the record profits of publicly traded oil companies, and the record-setting profits of other corporations. **Inflation is a result of corporate greed.**

Here is just one link to a news report about the stunning oil company profits:

Congresswoman Katie Porter has taken out her whiteboard and created another one of her excellent detailed explanations and this time she is talking about inflation. Here is a link to Congresswoman Porter's video:

As has been previously reported, "This election is up to women." We must hammer home this corporate greed that has caused **worldwide inflation, so don't blame President Joe Biden or the Democrats**. We need to work hard these last few weeks. Let's rev up our campaign efforts. Leave no stone unturned because voters are already voting early, and others are filling out absentee ballots.

It is time to elect Democrats everywhere.

Best regards,
